

# Geomant SMS for Lync

# Geomant Software Solutions

## SMS for Lync

### Sends SMS Text Messages from Microsoft's Instant Messaging System.

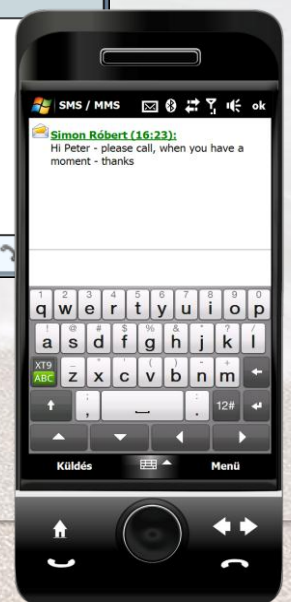

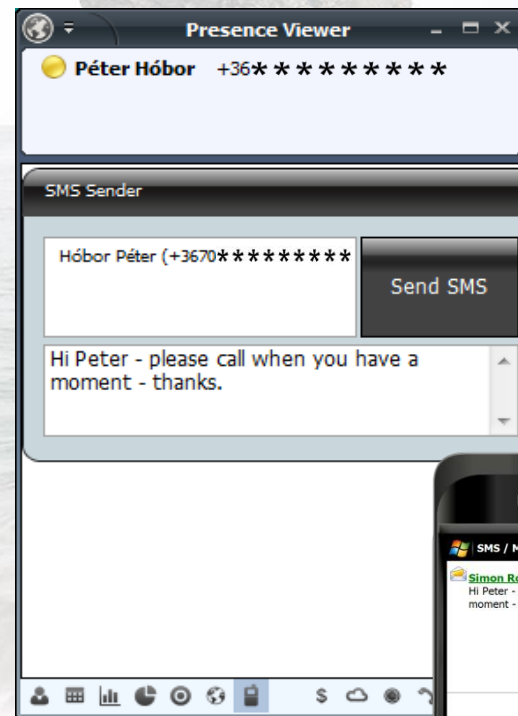

Geomant's **SMS for Lync** enables SMS Text message to be sent from Microsoft Lync and Communicator clients.

SMS text messages can be sent to one or more contacts – ideal when Lync contacts are off-line.

Geomant SMS for Lync works with customers' own SMS gateways or through an interface to an on-line SMS gateway.

## FEATURES

- ◆ Open a new SMS window by right-clicking any user on your contact list.
- ◆ 'Drag and Drop' single or multiple contacts or contact groups.
- ◆ Send SMS to existing and new contacts.
- ◆ Receive confirmation of successful SMS initiation.
- ◆ Enables you to reach Lync contacts who are not currently on-line.
- ◆ Ideal for confirming information following an Instant Messaging conversation.
- ◆ Compatible with Microsoft Lync and OCS R2.
- ◆ Messages can be delivered so they appear to come from the initiator's mobile phone, allowing replies to be sent direct to that mobile phone.

# Geomant Software Solutions

## SMS for Lync

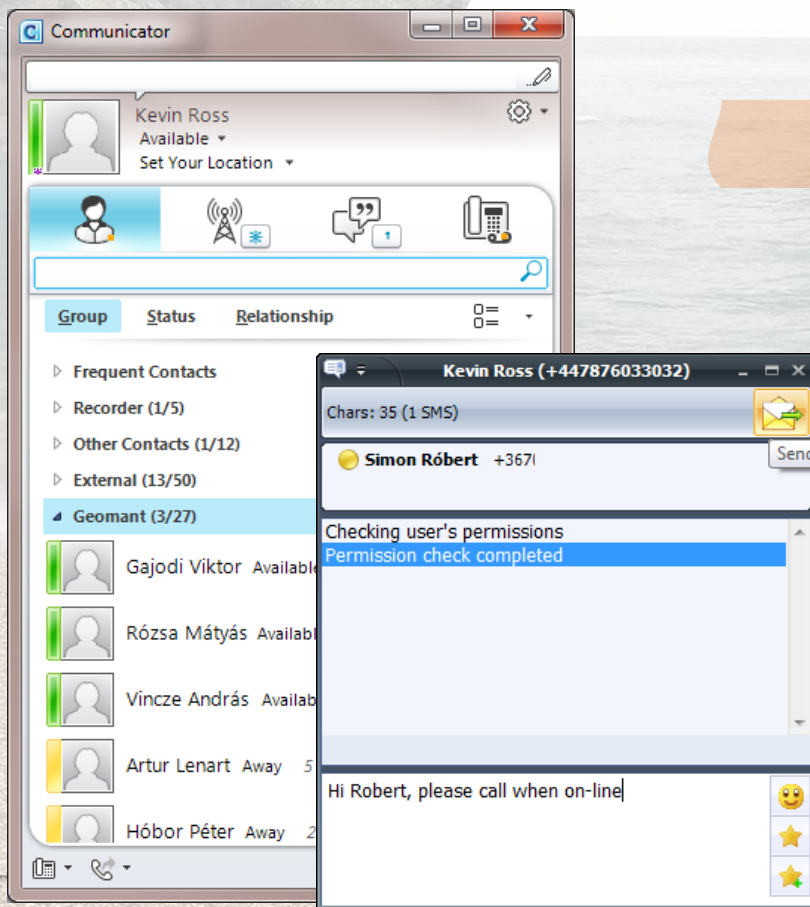

### COMPONENTS

**Client application:** The client application allows SMS text messages to be initiated from the contact list or during a conversation.

**Server application:** The server application interfaces with the client application and initiates outbound SMS text messages.

**SMS API:** Integrates with most commercial on-premise SMS gateways.

**On-line SMS Gateways:** For customers without an existing SMS gateway, Geomant's solution will integrate with service providers offering on-line 'pay as you go' outbound SMS messaging (e.g. [www.winplc.com](http://www.winplc.com), [www.e-txt.com](http://www.e-txt.com), [www.msggateway.ca](http://www.msggateway.ca), [www.cubesms.com.au](http://www.cubesms.com.au)).

### BENEFITS

- ◆ **Cost-effective:** often cheaper than sending SMS from a mobile phone.
- ◆ **Powerful:** Makes Lync and OCS even more powerful – reaches out to contacts who are not currently on-line.
- ◆ **Integrated:** fully integrated with Lync and Office Communicator, and hence Active Directory and personal contact lists.

## GEOMANT UC PRODUCTS

**MWI2007:** Microsoft Unified Messaging add-on, enabling the lighting of 'Message Waiting' lamps on desk-phones when a voicemail has been left in the user's Exchange inbox.

**Presence Suite:** A suite of solutions that dramatically extends the Presence capability of the Microsoft Unified Communications platform, facilitating integration of Presence with Business Applications. Includes **Geomant Mobile Presence** – extending presence information to include geographic location.

**Mobile Call Recorder:** Records mobile phone conversations for compliance and quality purposes. Uploads call recordings and full mobile history to Microsoft Exchange.

**Lync Call Recorder:** Records Lync and OCS voice calls – 'on demand' or 'always on'. Uploads call recordings to Microsoft Exchange, and available via online interface.

**Contact Expert:** Lync / OCS Contact Centre solution. Provides full Contact Centre Capabilities in a Microsoft Unified Communications infrastructure. Includes inbound, outbound, campaign management and call recording.

**SMS for Lync:** Microsoft Lync / Office Communicator add-on, enabling the sending of SMS text message from the Microsoft Lync or Communicator client.

**Abuse Filter:** Microsoft Lync / OCS add-on, designed to prevent the individual misuse of Instant Messaging. Checks Instant Messages against a configurable blacklist of words and phrases.
