

# Geomant MWI2007 Reseller Newsletter

January 2010

## Welcome

Happy New Year! And welcome to Geomant's second MWI2007 newsletter, written especially for our growing community of resellers.

In this edition we show the brand-new MWI2007 user-interface – available to all new customers, and to all existing customers with a current support contract. Early feedback has been really positive, particularly regarding the new user list and batch change facility.

Those of you with an interest in Microsoft OCS may also be interested in Geomant's various OCS add-on products – see details of Page 2.

Feel free to drop me a note, or give me a call about anything you read in this newsletter.

## INSIDE THIS ISSUE

- 1 Welcome  
New MWI2007 User Interface
- 2 Geomant Support CePresence Suite  
Geomant SMS for OCS  
OCS & Mobile Call Recording  
New Year Promotion: 3 Years Support for the Price of 2

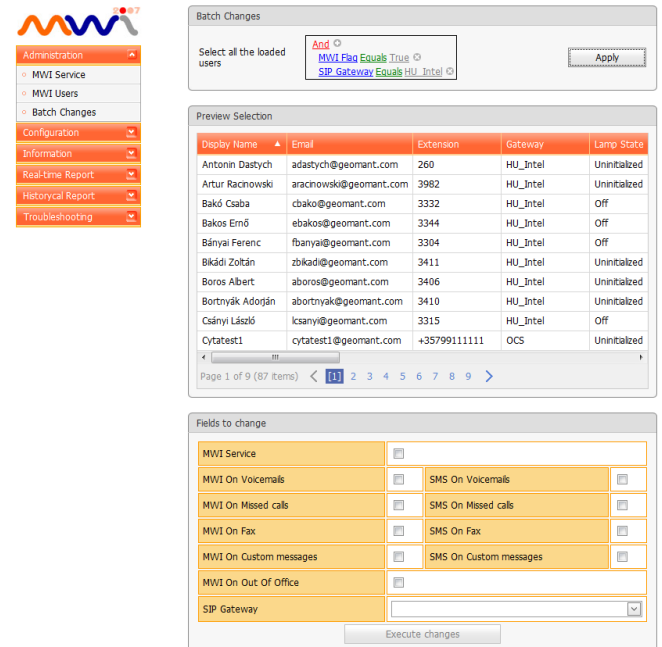

## NEW MWI2007 USER INTERFACE

The MWI2007 Administration screens have received a radical overhaul!

- Improved look and feel, with better navigation.
- Enhanced troubleshooting capabilities.
- Much improved users management screens, with the ability to sort and group users.

One of the most useful new features is a sophisticated on-line batch user-update facility. This allows multi-field searches, and mass changes for selected users, and replaces previous script batch changes.

This new user interface is available to all new customers, and to all existing customers with a current support contract. Contact us to find out more!

## NEW PRODUCT!

### Geomant Presence Suite

Geomant's recently launched *Presence Suite* unlocks the power of unified communications: communication enabled business processes delivered on Microsoft's OCS platform – **see what's possible!**

The Presence Suite includes Geographic Presence, Historical presence reporting, business applications API, and skills based resource identification.

Contact us for an on-line demonstration today. For a preview see our new video on YouTube:

## PRODUCT BRIEFING

### SMS for OCS

Geomant's SMS for Microsoft Communicator enables SMS Text message to be sent directly from the Microsoft Communicator client.

So, if someone isn't on-line, but has their mobile phone, send an SMS message!

Please contact us if you have customers who may be interested in this solution. We will be happy to assist in the sales process.

## OCS & MOBILE CALL RECORDING

Geomant's OCS and Mobile Call Recording Solutions will be featured in the next newsletter. Contact us if you want more information now.

## 3 for the price of 2!

As a new year promotion, Geomant is offering 3 Years MWI2007 Support for the price of 2 Years. This applies to any new MWI2007 order or any support renewal order received in January or February.
